

Celfrost[®]

Silent Minibars trusted by leading hotels...
...in India and abroad

Celfrost
 WELLWAY

Coming from Asia's largest manufacturer of absorption minibars and patronised by leading brands like Crowné Plaza, Hilton, Taj Hotels, Park Plaza, Fortune Hotels, Ramada, Country Inns & Suites, Holiday Inn, Choice Hotels, Orchid and many more.

MB-40

The Classic

This popular absorption minibar, the Celfrost MB 40 comes in brown colour and is available in 40 ltr. capacity.

"Our products demonstrate our commitment to energy efficiency, safety, ergonomics and environmental best practices".

Other features

- Optional lock available
- Optional door linkage attachment
- Left or right hand door opening options
- Flexible interior layout/door shelves
- Automatic defrost

30% higher cooling efficiency

Door control, low rated power LED internal light

Flexible shelving arrangement

Optional sliding hinge allows the simultaneous opening of both minibar and exterior cabinet door

PRO SERIES

Celfrost Pro Series is arguably the world's most advanced range of absorption refrigerators. It comes with a new, fin type cooling plate with an enhanced surface area & increased insulation thickness that allows for a better cooling performance and less energy consumption as compared to traditional minibars. The recessed thermal switch prevents the users from accidentally disturbing the temperature setting and the tempered glass shelves have specially designed protection bars that prevent the drinks from falling off.

The Pro Series comes in an elegant black colour and in 30 , 40 and 60 ltr. capacity variants. A distinctive glass door version is also available in 40 ltr. capacity.

MB-40 PRO

Innovative cooling plate for enhanced cooling & storage

Special door balcony for placing small & large bottles

- Left or right hand door opening
- Automatic defrost
- Flexible interior shelves in tempered glass

Compressor Minibars

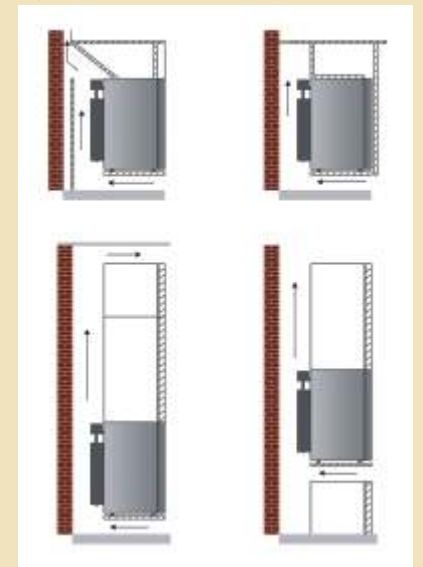

- CFC free, R 134a refrigerant
- Low energy consumption and noise
- 50 ltr. capacity available in elegant white colour

MF-50

Installation Guidelines

A minimum air space of 10 cm. must be kept between the minibar and the wall or the furniture cabinet to allow proper air circulation and dispersal of heat. Please refer to these drawings for possible alternatives.

MB-40 PRO

Why absorption minibars ?

Compared to conventional compressor refrigerators, absorption refrigerators have no moving parts and are therefore noiseless and non-vibrating, resulting in longer life-span. Totally CFC-free, they do not require any additive refrigerant for service, and are capable of working well even in unstable voltage situations. This also allows them to be inclined or tilted during transportation.
